Customer will bear the risk of all unauthorized instructions by its Representatives and will indemnify and hold QFS harmless from all claims, liabilities, losses, damages, fees, costs and expenses relating to or arising from QFS’s reliance on such instructions, including any improper, unauthorized or fraudulent instructions by the Representatives, except in cases of gross negligence or willful misconduct by QFS. Unless expressly stated otherwise in writing, all transactions entered into between QFS and Customer shall be governed by the terms of this Agreement, as amended from time to time (including, without limitation, QFS’s Risk Disclosures and Trading Policies and Procedures).

B. ACCOUNTS

QFS may reject Customer’s application or close Customer’s Account for any reason, at QFS’s sole and absolute discretion. QFS may require Customer to provide QFS with additional information or documentation in order for QFS to continue carrying Customer’s Account. Customer acknowledges that QFS may, at any time in its sole and absolute discretion, restrict trading, disbursements

or transfers. QFS may amend, change, revise, add or modify the Agreement at any time. The most current Agreement will be posted to the domain <http://www.kridex.com> (“Website”). Customer acknowledges and agrees that Accounts are segregated in the QFS’s books and records only, and Customer’s funds are not FDIC-insured and are deposited with a liquidity provider selected by QFS in its sole discretion.

2. JOINT ACCOUNT OWNERS.

If this Account is held by more than one (1) person, all of the joint holders agree to be jointly and severally liable for the obligations assumed in this Agreement. Customer agrees to notify QFS of any third-party accessing or operating the Account, failure to do so will be construed as a breach of these terms. If this Account is held in trust, joint ownership, or partnership, the undersigned hereby agrees to indemnify, defend and hold harmless QFS for any losses resulting from breach of any fiduciary duty of the undersigned to the other holders and beneficiaries of this Account. Further, any one or more of the joint owners shall have full authority for the Account and risk of the Account owners, to buy, sell, and trade in transactions of foreign currencies or off-exchange options, to deposit with and withdraw from QFS, currencies, securities, negotiable instruments, and other property, including withdrawals to or for the individual use or Account of the party directing the sale or of any other party, to receive and acquiesce in the correctness of notices, confirmations, requests, demands and all other forms of communications, and to settle, compromise, adjust, and give releases with respect to any and all claims, demands, disputes, and controversies. Customer agrees to notify QFS immediately upon the death or legal incapacity of any joint owner. QFS may terminate this Agreement by written notice to any one of the joint owners. In the event that QFS receives a notice of a dispute between or conflicting instructions from joint account holders, QFS may, but is not required to, place restrictions on the account, including restrictions on withdrawals or transfers from an account, until QFS receives satisfactory documentations that the dispute has been resolved or all joint account holders give QFS instructions.

3. MARGINS AND DEPOSIT REQUIREMENTS.

For example, in volatile market conditions a margin call may be delayed resulting in the possibility of a negative usable margin; a margin call may occur even if positions are hedged, in the jurisdictions where hedging is permitted by law, due to currency conversion rate volatility or daily interest charges or credits.

4. ROLLOVERS.

QFS may, in its sole discretion and without notice to Customer, offset Customer's open positions, roll over Customer's open positions into the next settlement time period, or make or receive delivery on behalf of Customer upon any terms and by any methods deemed reasonable by QFS, in its sole discretion. Any of the above actions may be taken without demand for margin or additional margin, without prior notice of sale or purchase or other notice to Customer, Customer's personal or appointed representatives, heirs, executors, administrators, trustees, legatees or assigns and regardless of whether the ownership interest shall be solely Customer's or held jointly with others.

QFS provides the Technology "as is," without any warranties of merchantability, fitness for a particular

purpose, or other express or implied warranties. QFS will not be responsible for the operation or performance of any automated trading system developed with Technology or for any malfunctions of Technology or for any delays or interruptions in transmission of orders due to breakdown, excessive call volume or failure of transmission or communication equipment on the Internet or otherwise, including, but not limited to, communications problems, computer software or hardware breakdowns, malfunctioning errors, any and all problems or glitches associated with computer problems or any other technical cause or causes.

11. FOREIGN ACCOUNTS.

Customers residing outside of Seychelles ("Foreign Accounts") may be asked to comply with requests for special information by QFS as required by any governmental unit or regulatory agency. This includes, but is not limited to, special calls for information. In the event of a special call for information, QFS or its agent shall be required to obtain the information set forth by any governmental unit or regulatory agency requesting information. In addition, failure to respond to a special call may cause transactions to be prohibited (other than offsetting trades) for the Customer. Foreign Accounts must copy and forward an official form of picture identification and must provide a bank reference before the Customer is approved for trading.

12. PRICE, EXECUTION, AND TRADING PLATFORM MANIPULATION

QFS strictly forbids the Customer to use any device, software, or any other method to manipulate or attempt to manipulate, take advantage of any price, quote, software, Trading Platform, electronic system, market gaps, or other data feed or interface made available to you by QFS, or to cause the execution of any order at a price that does not then exist in the market (each such activity a "Manipulation"). QFS reserves the right to investigate and review the account of any Customer that it suspects of engaging in any Manipulation and to withhold any funds that it suspects were derived as the product of such Manipulation. QFS reserves the right to make any corrections or adjustments to an account involved in any Manipulation, including: (a) amending the details of each affected transaction to reflect what we may, in our sole determination, reasonably determine to be the correct or fair terms of such transaction absent Manipulation; (b) reversing or canceling any transaction; and (c) refusing to conduct further business with any Customer. QFS will resolve any disputes related to any Manipulation in its sole and absolute discretion and may report any incidents of

Manipulation to any relevant regulatory or law enforcement agency.

QFS reserves the right to make any corrections, adjustments annual any profits made to an account involved in any breach of these terms, including: (a) amending the details of each affected transaction to reflect what we may, in our sole determination, reasonably determine to be the correct or fair terms of such transactions; (b) reversing or cancelling any transaction; and (c) refusing to conduct further business with any Customer. QFS will resolve any disputes related to any breach of terms in its sole and absolute discretion and may report any incidents of breach of terms to any relevant regulatory or law enforcement agency.

The paragraph headings in this Agreement are inserted for convenience of reference only and are not deemed to limit the applicability or affect the meaning of any of its provisions.

7. GOVERNING LAW AND JURISDICTION.

The validity of the remaining provisions and conditions shall not be affected thereby, and this Agreement shall be carried out as if such invalid or unenforceable provision or condition was not contained herein.

12. ACCOUNT TRANSFER AND ASSIGNMENT.

I. RISK DISCLOSURE STATEMENT.

1. Trading in margined CFD products involves a high degree of risk including the risk of loss of the Customer's entire Risk Capital deposited with QFS. Losses, in some cases, have the potential to extend beyond the Customer's Account Value. In consideration of QFS agreeing to enter into CFD Contracts with its Customer(s) for this Account, QFS requires all the undersigned Customer(s) to analyze their financial objectives, financial status, investment constraints and tax situation to determine whether CFD trading is suitable. In addition, we require our Customers to carefully read and acknowledge the QFS Risk Disclosure Statement that outlines without limitation the risks associated with trading margined CFD through QFS. By signing this Agreement, the Customer understands and agrees that:

2. OTC Margined CFD Trading involves a high amount of risk and is highly speculative. The Customer(s) agrees that they are in full understanding and willing to assume the legal, economic, and other risks associated with the trading in margined CFD and are willing and able to assume the loss of their entire Risk Capital, defined as those funds, that if lost, would not change your lifestyle or your family's lifestyle. As such, they further agree that margined CFD trading is not suitable for Retirement Funds. QFS encourages Customers to closely manage outstanding open positions and to use prudent money management precautions such as, but not limited to, Stop Loss Orders.

3. Excessive leverage available with Margined CFD can lead to quick losses. The Customer(s) agrees that using a high degree of leverage, defined as the use of a small amount of capital to control a larger amount of an Open Position, can result in large losses due to a price change(s) of open CFD Contract(s) with QFS. QFS provides leverage on most financial products for most customers. QFS encourages its Customers to use only that portion of leverage that the Customer is most comfortable with and to use money management precautions such as, but not limited to, Stop Loss Orders for the purpose of limiting risk. QFS reserves, at its sole discretion, the right to reduce or increase the amount of leverage given on any Currency Pair at any time and without notice.

4. CFD trading experiences periods of liquidity risk. The Customer acknowledges that Liquidity Risk, resulting from decreased liquidity of a CFD product, is usually due to unanticipated changes in economic and/or political conditions. The Customer also acknowledges that Liquidity Risk can affect the general market in that all participants experience the same lack of buyers and/or sellers. The Customer also understands that liquidity risk can be QFS specific due to changes in liquidity available to QFS from an QFS Custodian of funds interbank liquidity providers or specific to retail CFD market makers due to a perception that the risks of the market segment has increased. When liquidity decreases, Customers can expect, at the minimum, to have wider bid to ask spreads as the supply of available bid/ask prices, outstrips the demand. Decreases in liquidity can also result in "Fast Market" conditions where the price of a currency pair moves sharply higher or lower or in a volatile up/down pattern without trading in an ordinary step-like fashion. In some instances, there may exist the possibility that a trading bid and/or ask price for a CFD product are not available (a situation where there is no liquidity). Although there may be instances when the aggregate OTC CFD market enters a "Fast Market" situation or periods where liquidity is in short or no supply, it is important to note that, QFS prices, bid/ask spreads and liquidity will reflect the prevailing interbank market liquidity for QFS. QFS can Liquidate Positions of the Customer that do not have adequate margin: Because of the leverage available with OTC Margined CFD Trading and the potential for extreme volatility, an QFS Custodian of funds reserves the sole discretionary right to liquidate Customer's Account(s) should the Margin in the Account not be sufficient to cover the potential risk of loss. QFS graphically shows the Customer's Liquidation Level on the Customers QFS Margin Monitor. Should the Customer's Account value go below the free of programming bugs that can cause

trading, position keeping or any other required functionality of the Trading Platform and other relevant software applications associated with QFS including but limited to clearing, market making and escrow Account software, from becoming inoperable or without errors.

5. There is a Communication Risk that the Customer assumes. Although QFS will have qualified representatives available on the telephone during business hours, a representative may become unavailable due to communication or other malfunction, or high call volume. The Customer acknowledges and agrees that they will hold harmless QFS for any loss or missed trading opportunity resulting from any communication problems the Customer may encounter.

6. QFS does not take responsibility for Money Managers or any third-party method that is making trading decisions on the Customer's account. Should a Customer grant a third-party discretionary trading authority or control over a Customer's Account, the Customer acknowledges that QFS does not take any responsibility for any action done by that Third Party on the Customer's behalf. The Customer agrees to notify QFS of any third-party that is accessing or operating the Account, failure to do so will be construed as a breach of these terms. The Customer grants the third-party trading authority for the Customer's Account at its sole, and full risk. QFS reserves the right to correct any transactions executed on misquoting errors: In the case when a quoting error occurs that results in a Customer transaction done at an off-market price, QFS reserves the sole discretionary right to make the necessary corrections and adjustments to the Customer's Account whether it be in the favor of the Customer or not in the Customer's favor. Any change will be reported to the Customer either verbally or via an electronic method such as but not limited to email.

7. All Market Recommendations made by QFS or any representative of QFS are for informational purposes only. Any decision by the Customer to buy or sell a CFD product is an independent decision by the Customer. Market recommendations made by QFS or a representative of QFS do not constitute an offer to sell or buy any Foreign Currency pair from QFS or from any other source that may provide straight-through processing prices to the Customer. QFS and its employees are not investment advisor(s) and have no fiduciary duty to Customer and therefore is not liable for any losses incurred by the Customer as a result of information or any recommendations made by QFS or representative of QFS. Customer is at Risk if QFS should go out of business. There is no guarantee that QFS as a business will be

profitable. Consequently, there exists a credit risk that QFS may be subject to losses, which could, in turn, jeopardize the capital that the Customers have in their Accounts.

Customer acknowledges that in the event of insolvency, the Customer can only look to QFS for performance and return of all Collateral and Margin that the Customer may have at QFS.

8. QFS may decide to exit the FX Business. As a result, the Customer agrees and acknowledges that QFS may liquidate all Customer positions and return margined funds to the Customer at the sole discretion of QFS, at any time and for any reason. The Customers do not hold QFS liable for any loss as a result of liquidation of the Customers position either on an actual basis or as a result of missed profit opportunities.

9. Customers are responsible for any reporting errors. Any reporting and confirmation errors of omission, and/or errors in details of transactions including but not limited to the price contracts were executed, the currency pair traded, the market direction (i.e., "buy" or "sell") of order, the type of order and/or any errors in fees, charges or credits to the Customer's Account including but not limited to charges for executing a transaction, wiring funds, rolling over position, and sweeping foreign currency balances into the home currency, require that the customer notify QFS immediately upon discovery for review. In addition, the Customer is responsible to submit any errors in writing to QFS and send the complete details to Attn: Quantix FS Ltd, Office 3, Suite C, Second Floor, Orion Mall, Palm Street, Victoria, Mahe, Seychelles. Notice shall be deemed received only if delivered or mailed by registered mail to, return receipt requested.

10. Risks from trades done using chat communication devices. QFS may utilize an electronic conversational application or other similar chat application for the communication and execution of some market orders. Trades done using chat applications or the telephone should only be done if the Customer cannot execute using the Trading Platform. Although currently not planned, QFS reserves the right to charge a commission for trades done over chat applications. Should QFS charge a commission for chat application trades, it will be reported on the QFS Website and be reflected as a line item debit in your QFS Account Reports. All trades and charges done via chat applications are final. Neither QFS nor third party chat application provider is responsible or liable if the electronic logs of the electronic conversations are erased or never recorded because of error, omission or any reason. QFS is also not liable should User Name, Password and Account information be obtained knowingly or

unknowingly by a Third Party and as a result, trades done in the name of the Customer without his or her knowledge or authorization.

11. QFS has limited liability. The Customer agrees and acknowledges that QFS shall not be liable to the Customer for any claims, losses, damages, costs or expenses, including attorneys' fees caused directly or indirectly by any events, actions or omissions, without limitation, claims, losses, damages, costs and expenses, including attorney's fees, resulting from civil unrest, war, insurrection, international intervention, governmental action) including, without limits, exchange controls, forfeitures, devaluations and nationalizations), natural disasters, acts of God, market conditions, communication problems or any delay, disruption, failure of any transmission or communication system or computer hardware or software application whether supplied and belonging to QFS or from a third party vendor that the Customer and QFS relies on to conduct execution and reporting services.

12. Effect of "Leverage" or "Gearing". FX contracts carry a high degree of risk. The amount of initial margin is small relative to the value of the FX contract so that transactions are "leveraged" or "geared". A relatively small market movement may have a proportionately larger impact on the funds Customer has deposited or will have to deposit. This may work against the Customer as well as for the Customer. The Customer may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain the Customer's position.

13. Risk-reducing orders or strategies. Placing contingent orders, such as "stop-loss" or "limit" orders, particularly in volatile market conditions, will not necessarily limit Customer's losses to the intended amounts, since market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

14. Charges. Before the Customer begins to trade, the Customer should obtain a clear understanding of all charges for which the Customer may be liable. These charges will affect the Customer's net profit (if any) or increase the Customer's loss.

15. Electronic trading. Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If the Customer undertakes transactions on an electronic trading system, the Customer will be exposed to

risks associated with the system including any failure of hardware and software. The result of any system failure may be that the Customer's order is either not executed according to the Customer's instructions or not executed at all. Since QFS does not control signal power, its reception or routing via Internet, configuration of the Customer's equipment or reliability of its connection, QFS cannot be responsible for communication failures, distortions or delays when trading on-line (via Internet). In no event shall QFS be liable for speculative or expectancy damages for potential future lost profits.

16. Limitation of liability. The Customer accepts any trading system provided by QFS "as is," and without warranties, express or implied, including, but not limited to, the implied warranties of merchantability or fitness for a particular use, purpose or application; timeliness; freedom from interruption; or any implied warranties arising from trade usage, course of trading or course of performance. Under no circumstances shall QFS be liable for any punitive, indirect, incidental, special or consequential loss or damages, including loss of business, profits or goodwill. QFS shall not be liable to the Customer by reason of delays or interruptions of service or transmissions, or failures of performance of QFS's or its affiliate systems, regardless of cause, including, but not limited to, those caused by hardware or software malfunction; regulatory action; acts of god; war, terrorism, or our intentional acts. The Customer recognizes that there may be delays or interruptions in the use of our system, including, for example, those caused intentionally by QFS for purposes of servicing the system. QFS does not guarantee that alternative trading arrangements will be available at a particular time and QFS will not be held liable for delays in entering an order.

17. Margin. QFS's margin policies require that the Customer's Account be properly margined at all times. Failure to meet margin requirements may result in the liquidation of any open positions with a resultant loss. QFS reserves the right to liquidate all positions without notice if an Account falls below the Customer's minimum margin requirement, in accordance with QFS's margin call policy.

18. Quoting errors. Should quoting errors occur, which may include, but are not limited to, a mistype of a quote by QFS, a quote which is not representative of fair market prices, an erroneous price quote from a QFS employee, such as but not limited to a wrong big figure quote or an erroneous quote due to failure of hardware, software or communication lines or systems and/or inaccurate external data feeds provided by third-party vendors, QFS will not be liable for the resulting errors in Account balances. The

foregoing list is not meant to be exhaustive and in the event of a quoting error, QFS reserves the right to make the necessary corrections or adjustments on the Account involved. In the event of a system error where interest is not charged or credited as scheduled, QFS reserves the right to apply the missed interest to the Account at any time.

19. Third-Party Authority. In the event that a Customer grants trading authority or control over Customer's Account to a third-party trading advisor, such as a Money Manager, or an automated trading program, whether on a discretionary or non-discretionary basis, QFS shall in no way be responsible for reviewing the Customer's choice of such trading advisor, or for making any recommendations with respect thereto. The Customer agrees to notify QFS of any third-party that is accessing or operating the Account, failure to do so will be construed as a breach of these terms. QFS makes no representations or warranties concerning any trading advisor; QFS shall not be responsible for any loss to the Customer occasioned by the actions of the trading advisor; and QFS does not, by implication or otherwise, endorse or approve of the operating methods of any trading advisor. If the Customer gives a third-party authority to exercise any rights over the Customer's Account, the Customer does so at the Customer's own risk and the Customer should regularly review the activity in Account to ensure that the Customer approves of the transactions placed on Customer's behalf by the third-party as approved by the Customer.

20. Disclosure Regarding Bankruptcy Protections. The transactions the Customer is entering into with QFS are not traded on an exchange. Therefore, the Customer's funds may not receive the same protections as funds used to margin or guarantee exchange-traded futures and options contracts, which receive a priority in bankruptcy. Since that same priority has not been given to funds used for off-exchange trading, if QFS becomes insolvent and the Customer has a claim for amounts deposited or profits earned on transactions with QFS, the Customer's claim may not receive a priority. Without a priority, the Customer is a general creditor and the Customer's claim will be paid, along with the claims of other general creditors, from any monies still available after priority claims are paid. Even customer funds that QFS keeps separate from its own operating funds may not be safe from the claims of other general and priority creditors.

21. Volatile Market Conditions. Trading during times of extraordinarily volatile market conditions, e.g. key news announcements may expose the Customer to additional risks, including the risk that the Customer may not get the

price him or her requests. QFS cannot and does not guarantee its prices in times of abnormal market conditions or volatility.

22. Simulated Conditions. Simulated conditions may differ from real conditions. Therefore, Customers who trade on demo Accounts should not necessarily expect the same results from live trading.

23. Referring Parties. IF YOU WERE REFERRED TO QFS BY AN INTRODUCING BROKER, REFERRING PARTY OR THIRD-PARTY ADVISOR (EACH, AN "IB"), PLEASE BE ADVISED THAT QFS AND YOUR IB ARE WHOLLY SEPARATE AND INDEPENDENT FROM ONE ANOTHER AND THERE EXISTS NO JOINT VENTURE OR PARTNERSHIP RELATIONSHIP BETWEEN THE PARTIES. ADDITIONALLY, NEITHER IB NOR ANY OTHER EMPLOYEE OR AGENT OF IB IS AN AGENT OR EMPLOYEE OF QFS.

a. QFS does not control and cannot endorse or vouch for the accuracy or completeness of any information or advice a Customer may have received or may receive in the future from the Customer's IB or from any other person not employed by QFS regarding Forex trading or the risks involved in such trading.

b. QFS provides risk disclosure information to all new Customers when they open Accounts. The Customer should read that information carefully and should not rely on any information to the contrary from any other source.

c. The Customer acknowledges that no promises have been made by QFS or any individual associated with QFS regarding future profits or losses in the Customer's Account. Customer understands that Forex trading is very risky, and that many people lose money trading.

d. If an IB or any other third party provides the Customer with information or advice regarding financial market trading, QFS shall in no way be responsible for any loss to the Customer resulting from Customer's use of such information or advice.

e. To the extent the Customer has previously been led to believe or believes that utilizing any third-party trading system, course, program, research or recommendations provided by IB or any other third party will result in trading profits, the Customer hereby acknowledges, agrees and understands that all Forex trading, including trading done pursuant to a system, course, program, research or recommendations of IB or another third party involves a substantial risk of loss. In addition, the Customer hereby

acknowledges, agrees and understands that the use of a trading system, course, program, research or recommendations of IB or another third party will not necessarily result in profits, or will avoid losses or limit losses.

f. Because the risk factor is high in foreign currency trading, only genuine risk capital should be used in such trading. If the Customer does not have capital which the Customer can afford to lose, the Customer should not trade the financial markets.

g. The Customer understands and acknowledges that QFS may compensate the Customer's IB for introducing the Customer to QFS and that such compensation may be on a per-trade basis or other basis.

h. The Customer understands and agrees that if the Customer's Account with QFS is introduced by an IB, that IB shall have limited access to information regarding the Customer's QFS Account, but the IB shall not have the right to enter into any trades on the Customer's Account unless authorized by the Customer under a power of attorney between the Customer and IB granting such IB the right to trade on the Customer's Account.

i. The Customer understands and acknowledges that the Customer may have only one IB, a party that originally referred the Customer to QFS.

j. the Customer may terminate the relationship with an IB by providing written notice to QFS. The Customer understands and acknowledges that the Customer cannot be considered the Customer of any other IB. Should you have any questions regarding the risks of trading in foreign currency; please contact your Account representative.

QFS will continue to protect the privacy of former customers' nonpublic personal information in the same manner as when they were customers. Unlike continuing customers, however, former customers will not receive annual privacy notices. QFS will provide a notice of our privacy policy annually, as long as the customer maintains an Account with QFS. QFS reserves the right to make changes to this policy. This policy may always be reviewed on the Website.

J. CONSENTS AND FURTHER AGREEMENTS

1. CONSENT TO ELECTRONIC TRANSMISSION OF CONFIRMATIONS & ACCOUNT STATEMENTS. The Customer and QFS agree to take all steps and execute all documents necessary for the implementation of arbitration proceedings. All statutes of limitations applicable to any dispute apply to any arbitration between the Customer and QFS. The provisions of this Arbitration Agreement shall survive termination, amendment or expiration of the Customer's Account relationship or the governing QFS Customer Agreement or any other relationship between the Customer and QFS. Either the Customer or QFS may require the submission of the dispute to binding arbitration at any reasonable time, notwithstanding that a lawsuit or other proceeding has commenced. However, this time limit may be extended by agreement of the parties or by arbitrator(s) if necessary. QFS shall pay any incremental fees that may be assessed by a qualifying forum for provision of a mixed panel, unless the arbitrators in a particular proceeding determine that the customer has acted in bad faith in initiating or conducting the proceeding.

3. PAYMENT INSTRUCTIONS.

All wired payments should be made to QFS bank accounts as it appears on QFS systems and/or websites.

4. LIQUIDATION LEVEL.

QFS reserves the right to automatically liquidate the position and the Customer will be responsible for all losses as a result of the liquidation. QFS reserves the right to change the Liquidation Level at its sole discretion.

5. Prices from QFS are independent of prices found elsewhere. The Customers acknowledge that the prices reported by QFS for buying and selling currency pairs are independent and can differ from the prices displayed elsewhere or from other liquidity providers in the interbank market. Differences can result from, but are not

limited to, changes in liquidity from interbank market makers to QFS, an unbalanced position or exposure in currency pairs at QFS, or differing expectations of price movements in currency pairs by QFS. QFS expects that in most cases the prices provided to its Customers will be in line with the general interbank market but does not warrant or imply that this will always be the case.

6. Rollover rates for open positions of currency pairs are determined by QFS and are independent of prices found elsewhere in the Interbank market. The Customer acknowledges that all existing Spot Open Positions that remain open over the end of business day for QFS, defined as 22:30 - 23:30 GMT (subject to be changed), are automatically rolled over to the next available Spot Settlement Date at a net debit or credit to the Customer(s) Account as determined by spot interest rates determined solely by QFS. Rollover debits and credits are also influenced by the number of days that the position has to be rolled. For positions that need to be rolled from a spot settlement date (value date) of Friday to Monday, the debit or credit will reflect rollover from Friday to Monday or three business days. For rollovers from Monday to Tuesday, Tuesday to Wednesday, Wednesday to Thursday and Thursday to Friday, the rollover debit or credit is for only one business day. If there is a holiday and QFS is closed, the rollover would take into consideration the holiday. For example, if Tuesday is a holiday, rollovers from Monday will be for two (2) business days (i.e. from Monday to Wednesday). Since rollover debits and credits are determined by the respective short-term spot interest rates of the respective currencies that make up a currency pair, a large spread from one currencies rate in relation to another's can cause a large debit or credit rollover amount. This spread can result, but is not limited to, a countries tightening of credit conditions in order to dissuade speculators from shorting a currency versus another. Year-end and quarter-end periods can also cause unusual spikes in short-term interest rates that may cause temporary spikes in rollover debits and credits. Customers acknowledge that there exists a rollover risk to currency positions. QFS will display the rollover debits or credits for the respective currencies pairs in the QFS application and automatically update Customer Reports to reflect the cash flow. QFS reserves the right to change the credits or debits at its sole discretion if the original amounts are in wrong due to an error or omission.

7. Sweep rates for currency balances other than USD are determined by QFS and may be independent of prices found elsewhere in the Interbank market. Profits that are calculated in a foreign currency are "swept" into dollars

when the open positions are closed and the Profit and Loss realized.

8. There is No Guarantee that QFS will be able to execute stop loss orders, limit orders or OCO Orders at the Customer Entered Price. The Customer acknowledges and agrees that there may be market, liquidity or other conditions that will prevent QFS from executing Customer's specific Stop Loss Orders, Limit Orders or OCO Orders at the Customer designated price. In some cases, the orders will be executed at prices that are less favorable to the price entered and desired by the Customer. The Customer acknowledges and agrees that they are still responsible for trades executed at levels different from their orders and that QFS is not liable for failure to do so.

9. There is a technology risk inherent in trading online or via a software application. Although QFS has invested a lot of resources developing, testing, configuring and integrating the Trading Platform and other relevant software and hardware, the Customer acknowledges and agrees that QFS does not guarantee that the Customer will be able to successful execute transaction, monitor their positions, or perform other essential tasks of QFS while using the public Internet and other technology from QFS or from third party vendors known or not known for which QFS may rely on. QFS cannot control, without limitation, the routing, Internet connectivity, reliability of customer or QFS equipment, network connections or any other technology hardware malfunction caused by QFS hardware, hardware and connectivity that makes up the public Internet, or hardware at the Customers location. Nor does QFS guarantee, although all effort has been made to the contrary, that the Trading Platform and Associated Back Office and Broker Software Interfaces nor any other code or application including but not limited to the interface with QFS liquidity provider(s) or the interface with the escrow Account institution or other technology application that would come under the heading software, are error-free and would not lead to communications problems, computer software or hardware breakdowns, malfunctioning errors, and any and all problems or glitches associated with computer problems or any other technical cause or causes . Customer acknowledges and agrees that QFS provides Trading Platform and Associated Back Office and Broker Software Interfaces "as is," without any warranties of merchantability, fitness for a particular purpose, or other express or implied warranties.

10. Customer's Orders cannot be revoked once given. QFS may, at its sole discretion, allow full or partial amendment of such only in exceptional circumstances as solely determined by QFS.

11. QFS has the right at its sole discretion to increase or decrease spreads and/or leverage, control maximum order amounts and limit a Customer's total exposure.

12. Stop Loss, Take Profit, and Limit Orders on the QFS's financial instruments, will be executed at the price declared by the Customer on the first current price touch or under certain market conditions, the order might not be executed at the declared price but at the next best price. Where there is technical failure either to the trading platform or financial tools or otherwise QFS reserves the right either to offer a different opening/closing price or, not to execute the Order. QFS is not obliged to give reasons or notice as to the reasons for suspending, declining or cancelling Customer's instructions. Additionally, if QFS does decide to suspend or cancel an instruction, such will not affect any obligations owed by the Customer to the Company or any right of the Company against the Customer or his/her assets.

13. QFS has a discretionary right to close positions from the most unprofitable where the Margin is less than 5%. QFS reserves the right from time to time to increase margin requirements for all financial instruments offered by QFS prior to QFS announcements or where market conditions require such increases. Customer's open positions may be subject to forced liquidation and the Customer may suffer significant loss in the case of failure to fulfil such requirements on time.

14. Financial instruments that have an expiration date, if are not closed prior to the expiration date, then QFS will forcibly close them at the last available price.
